- 0239971** - Optional Blower Kit for RH25 & RH35

- 0233970** - Natural (50,000 BTUs) RH-50CB
 Blower Kit Included.

RH-25 (25,000 BTUs)

RH-35 (35,000 BTUs)

Our console heaters feature an open design for maximum heat dispersion and includes a draft diverter to eliminate pilot outages.

Maximum air flow and heating are the strong points of the RH-25 and RH-35 Console Vented Room Heaters. Delivering warmth to your medium-size rooms, each unit is designed for style and efficiency. Add the optional internal blower for added circulation.

Quiet burners, a vent safety switch, "matchless" piezo ignition, and all the safety features you expect from Empire Comfort Systems® are standard equipment. Plus, for total reliability, these room heaters include a hydraulic thermostat (needing no electricity to operate).

Ideal for medium to large rooms, each unit can be installed anywhere there is access to a vent. Housed in a durable, textured, powder-coated, beige cabinet, these room heaters look as good as they work for years.

- Closed Cabinet
- Total Comfort for a Fraction of the Cost of Electric Heat
- Heats Without Electricity
- Draft Diverter Installs to Horizontal or Vertical Position
- Open Design Allows Maximum Flow of Heat
- Matchless Piezo Ignition
- Automatic Blower

RH-50BC (50,000 BTUs)

Heat large areas economically with Empire's Vented Room Heaters. With their efficient heat flow, this durable RH-50CB offers ample warmth to make any room comfortable. The closed front easily fits in any decor.

Radiant and convection heat circulates the warmth while the blower places warm air at floor level to give "barefoot" comfort throughout the winter season. The hydraulic thermostat needs no outside electricity assuring reliable, round-the-clock comfort. Each unit can be installed near any wall with access to a conventional vent.

Additional units available by special order. Contact your nearest Blevins location for more information.
